of Review
Docket OPMO-0184
Office of Air and Radiation (OAR)
U.S. Environmental Protection Agency
Washington, D.C. 20460

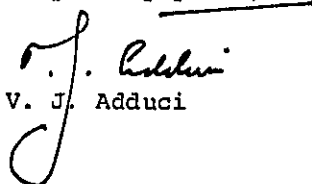

Dear Mr. Feith:

The Motor Vehicle Manufacturers Association of the United States, Inc. (MVMA) has reviewed your synopsis of the March 29, 1984 meeting between EPA and the petitioners requesting a deferral of the 80 dB noise emission standard for medium and heavy trucks. MVMA feels the synopsis accurately reflects the discussions and comments that transpired at the meeting and finds it unnecessary to offer any corrections.

In the event that MVMA develops information pertinent to the 80 dB noise standard issue, we will prepare a submission to the public docket for your review in the near future. Hopefully, this issue can be resolved to the satisfaction of all involved parties.

In the meantime, if you have any questions, please feel free to call upon us.

Very truly yours,

V. J. Adduci
